Organization of the City Government for the Year 1946

The city government for 1946 was organized Monday evening, January 7, 1946, at a meeting held in the main hall of the Opera House and Mayor Henry J. Proulx delivered the following inaugural address:

Mayor Proulx's Inaugural

Reverend Father, Members of the City Council and my fellow citizens:

Few if any have been privileged to assume this signal honor that I hold so proudly tonight of being inaugurated for the seventh time Mayor of your city, one of the finest communities in the State of New Hampshire. For this distinction I am deeply grateful and am fully aware of its meaning and the responsibilities involved. As in the past inaugurations I accept them and pledge you my continued efforts, dedicated to Good Government, a platform sustained since 1940, a pledge fulfilled in the interest of a people who recognize that their confidence while delegated to a public official is a mandate for their social and economic advancement and which should never be secondary to persons, groups or privileges. I am confident that this pledge for good government will be vigorously supported by my colleagues and associates in this 1946 Council who hold their seats of honor by virtue of an integrity, recognized by those electing them. I am also equally confident that even the "Closed Doors" sessions so mysteriously referred to by the opposition in the last campaign that usually precedes the regular monthly meeting to which they will be invited to attend, will not, in any way, have any effect on the freedom of their minds, not any more at least than the procedure had on the minds of the members of the Republican Party who created the precedent from 1895 to 1940, which does not call for any criticism I am sure, but simply to remind us that the charter and the provisions governing our city government estab-

lished a two party system of government, and assumes this obvious behavior. However, I challenge any presumption by the chairman of the Republican city committee in his publication of the "yellow sheet", with its falsehoods, to infer that "closed door sessions" are veiled mediums of legislation intended to escape the observation of the public or press; the record of the city council for the past six years now a public document subscribes to refute any allegation, and its record achieved in legislation and progress, acclaimed by State and County organizations in New Hampshire, has been accomplished almost without the exception of a dissenting voice, even by members of this body representing the minority party.

The day has passed when a public can be stampeded in the last minutes of a campaign by desperation or its dispositions, public trust today does intend to reward its justification but is quick to censor personal advancement unless a reliance is qualified and unless it has at least a promise that can be translated into action, that seeks to promote posterity for the advancement of all the people.

The news released in the past year with its promise of peace, came to our nation and world with the surrender of Japan and brought a response of joy that was unbounded and deserved after four years of an anxious vigil, and for the first time in this long period brought to us the hope of peace and the return of our loved ones. The cost of lives in this recent struggle, which spared no community in this entire nation, has tempered the limitations of our rejoicing notwithstanding the steady return to our midst of boys that left this community on a mission that at all times made their safety one of doubt and question. As we greet them on returning we sense with pride the privilege of calling them our own and admire their composure and manner in which they refer to the contribution they have made, and which, in success, is so modestly attributed to their comrades at arms who by the sacrifices of their lives, have first honor, first glory and perpetuation. They quietly remind us that this reunion could not be possible without the sacrifice of their colleagues and to them they owe their existence. This is the American, to us hardly old enough to assume such a responsibility, who has always been our next door neighbor, who left in his school age and although he has covered himself with glory, isn't moved by his achievements in his duty for his country, big enough for any contingency, one worthy of carrying on and contributing to the destiny and tradition of his country for which he and his associates so valiantly fought and died, one who fully realizes the meaning of democracy

and who can be relied upon to preserve its meaning and what it stands for. To those tonight who are unable to accept the termination of the second world war as one of complete happiness for them as the result of the nature of injuries inflicted on your dear ones or who will be deprived of seeing them again for the supreme sacrifice they have made may your grief find solace in the dignity of the cause of a grateful nation and hopeful humanity for which they suffered and died.

Thankful for peace at last, for all intents and purposes the period of bloodshed is over and now remains the task of adjusting ourselves following that period of four years of war. The road ahead will be long and difficult with its obstacles, detours and complications, which we must face and which necessarily follow such a period of experience as a war but I am confident that with the unity we have met any crisis, our problems will be solved by adhering to patience, effort and judgment that we are capable of applying. Dispatch in clearing the way for re-conversion is expedient to meet our obligations first to the veterans returning to civilian life who are entitled and expect, security and promise by their services already rendered, and secondly to prove to the world anxiously watching us that we are worthy of leadership in peace as in war so necessary to influence the pattern of their government by our example for understanding and peace.

If we had to believe some writers and commentators, we should lose all confidence in the diplomatic ability of our leaders today who, and I quote "by their blunders and judgment are sowing the seed of a third world war". Nothing could be so absurd, and would it be possible that since between the period of war and the declaration of peace, that we would be deprived of a leadership that was able and did bring a world conflict to a successful conclusion, featured by the guidance of their leadership?

I will never subscribe to any such hysterical conclusions and neither will I be alarmed with the dimensions of the task that lies ahead for this leadership. We have the finest in the world and equal to any occasion and if given an opportunity to cope with it, without the interference of greed, hate and intolerance, it will be successful.

Internationally we have always been involved in trading and exchanging with foreign countries, while trying to live under the influence or era of isolationism: a theory of taking money from a nation all the while not associating with them owing to the danger of involvement by dispute that might be a step to war. There never has been such a thing as boundaries for nations and peoples, just

So long as there has been commerce among nations, and we acknowledge after so many years of existence that "we are our brother's keeper" not because it has been pronounced in the teachings of Christianity, but because we have failed to disprove that Christianity is not right. I am not suggesting that we become responsible, to the nations and their peoples for their social and economic security, if they do not will it as the price for collaboration with us, but it does become our duty that we know them sufficiently enough and their desires, to have them become confident with us, that they will try to emulate us and even solicit our friendship and our way of life.

If we are confident that democracy works, and we know it does, as we have been privileged to live under its protection for all these years, we should know each other more, to justify our participation in a move to establish an understanding among men. I am confident that at home we will meet the challenge of our domestic problems which necessarily result as an aftermath of four years of war. We will have to do it with dispatch and in a decisive manner if we hope to sustain our leadership in the world which is necessary and if we hope to prove to the eleven million of our sons and daughters who will be returning to us shortly, upon whom rested the responsibility of victory that their homecoming is truly to be one of promise in a land of plenty.

Domestically two giants, Labor and Management, retarding our recovery program, are struggling to reach an understanding and in a true American manner, are airing their differences, now that the emergency is over; they are emphasizing and outspoken in an effort to reach decisions on their positions, although unfortunately are drawing criticism and even condemnation from many quarters; we must remember that both Labor and Management have already demonstrated what they can do when unified in the second World War and its crisis, and the same patriotism that glorified them to the greatest heights in American Production, which was a factor in determining the successful prosecution of the war to an end, will be the same spirit that will prompt and guide them for a solution to their problems today. They are Americans First.

We are in a world today that is changing to adjustment, which will have to be recognized by both Labor and Management, and the degree of success they will achieve in understanding in their controversy will rest greatly on the recognition of their indispensable partnership that is necessary to implement their mutual and inexhaustive interests. Unless wealth and need can find a common ground in a land of plenty to have a means propor-

tional, neither are deserving of existence in the eyes of God or Man and neither can hope to live under the laws of man-made creation.

Our nation, in the past four years, received its largest assignment ever to confront it. It was not only imperative that it should sustain itself and its armed forces, but it became the granary and arsenal of the world. It is still playing the role of an only hope to millions of people if they are to be spared starvation and want, and this extends to the needs of even those in the Axis and the defeated nations.

Labor and Management met the need inspired by duty in time of war and will again meet their crises by defending their respective rights of freedom to do so in time of peace.

The history of the United States and its progress is one of the world's finest, richest gems, it is our proudest heritage although studded with instances of struggle, crises and decisions. The future history of our country has promises of attainment that will be more brilliant but not without the experience and repetition of its early struggles, crises and decisions; inevitable for a nation that must be great.

We have had many crises in our history, when leadership to meet it was imperative and when unity always prevailed and in this respect we have always been favored by the services of many great men; one of these great men lived in our day and age to do more to restore the confidence of a discouraged and troubled country like his predecessors and will go down in history as a champion to human mankind; he wasn't, so as to speak, a physical giant as polio had made him a victim of its dreaded disease. He did have courage, and he fought that handicap, until he aspired and became the President of the United States. He served so well that he accepted the fourth term during which he died, and left a country in its deepest mourning without party discrimination and with the universe regretting his passing. No man in the world ever received such a tribute from so many people. Today, although he is gone, his contribution to mankind will dedicate to him a memorial that will be lasting forever, he is remembered as a symbol of courage with lasting evidence that the only thing we should ever fear is "fear itself". He has left to us a heritage that in our present day should be an inspiration, by the conclusive truth of his enunciation, that most of our failures in the past had been due to the fear of embracing the problems squarely until they were met and defeated. His

spirit lives with the problems that confront our nations tonight and the memory will continue to inspire men and their problems for generations to come. A great American passed in the service of his country and countrymen but the demonstration of his courage will live forever.

As the City of Franklin prepares to face 1946 to meet services restored to pre-war days I would like to acknowledge publicly the efforts of a department upon which the greatest responsibility for public service was assumed. Despite some unjustified criticism this department maintained services parallel to any in the state notwithstanding their worn out and depleted equipment and the skeleton organization available. The highway department and its mechanic are deserving of this recognition.

Other departments showing leadership and civic pride were the police department compelled to serve all overtime due to the inability of obtaining special officers, the fire department confronted with almost an entire exchange of personnel due to its regular members answering their country's call.

The Water Department in its important service with its smallest maintenance and operating crew in history.

The relief department, in which exists the only veteran personnel service officer assigned by any city to answer the needs and wants of veterans and their relatives.

Our visiting nurse's association who in its first anniversary did such a fine job of administration and personal humane service.

To the Park Commissioners for their progress of efficiency and promotion that found its reward most deserving in its recreational program that played such an important role in minimizing child delinquency in our community.

Mindful that leadership and civic duty deserves comment at this time I do not, however, want to acknowledge that the efficiency of some of our departments cannot be improved to meet the demands of normal times. It is the intention of the administration to meet with all departmental committees and leaders to devise plans under recommendations that will effect standards expected of them to again function with the highest service possible.

Facing our financial problems for 1946 suggests adjustment of compensation of personnel throughout all departments in our community. Their adjustment, after careful study, should be

based on responsibility, qualification and a standard of wage and hours that will meet accepted standards of work weeks now established for union labor, mindful of our economic conditions of our day. Wages and their scale should be permanent, predicated not on compensations received in 1940 but on the standards of 1940 as the basis for their determination in 1946. The enabling act in the statutes of the State of New Hampshire for the creation of a capital reserve fund would have a full justification if cities could have by taxation accumulated a cushion in capital to meet the needs of their post-war period. But in answer to many inquiries may I explain that the statutes provided only city municipal water departments by revenues from rentals to establish such a fund and then by adherence to certain required conditions. During the year 1946 the agenda for capital outlays will have to be provided for to replace obsolete, worn and new highway equipment.

Development of Daniell Park Plot for veterans, with roads, sewers and other facilities, extension of Edwards Street sewer, sidewalks, completion of Ward One playground, surfacing and loaming of Odell Park, installation of new street signs, these will entail a substantial amount and which should not be levied on a taxable year, but rather raised by a bond issue to be retired in ten years at rates of $1\frac{1}{2}$ to $1\frac{1}{4}$ per thousand.

In our community the problem of first order that is confronting your government is the housing emergency that is seriously social and physiological in scope and which comes at a time following a twenty year need and made more urgent and necessary to meet the new marriages and migrations of returning veterans and their families. The program so urgently needed is not without its complications as lack of building materials and the uncertainty of the costs involved are contingent to any progress and the promise of any relief in this situation. However every effort possible is being made by your city government to meet this need and progress in this direction by spring should be effective. The development of the Daniell Park area for veterans is as unique a program as has been suggested by any community in New England and has a promise of encouragement with even the assurance of building materials if the recent recommendation of the park commission is adopted by your city council. This involves a plan to cut all lumber on its premises at Webster Lake and to offer the material to all returning veterans building on that area at a price bearing on cost, plus value of lumber on the stump. According to estimates now in the hands of that committee, probably enough lumber can be processed to answer the requirement for thirty homes.

The vote of November 27th on the referendum on Municipal Light and Power expressed a surprising interest of the people, in the restoration to them of their water resources that the City of Franklin so richly possesses and which now rests with private ownership. For the first time in our city's political history, an issue was placed before our people and considering its importance was one of the finest contributions of independent voting ever experienced. May I congratulate our citizens on their activity and interest in an issue, which is now admitted by state authorities as one of the first steps leading to public ownership of the cities' richest endowments. Quoting the headlines in our state's largest circulated newspapers, it is now a matter of time when all water resources will be restored to public control.

Among supporters of Municipal Light and Power some disappointment has been expressed for the failure of passage of the referendum, but to them they can be assured the struggle has just begun. We cannot be and will not be discouraged by this temporary setback. Our failure in our last election on the Municipal Light and Power referendum, which was merely a vote on the sentiment of the people, can be attributed to the time people had to study it and our inability to counteract the oppositions' professional and trained emissaries that converged in our community for its defeat. Nebraska has just taken over the state's last private utility in accordance to Time Magazine of January 7, 1946 reporting that "after a year's operation, the utility has a net earned surplus of \$661,000.00." If it can happen in Nebraska, it can be done here in New Hampshire.

Since this issue has been before the people of Franklin, I have been receiving letters praising the foresight and the possibilities of public ownership of Municipal Light and Power Plants. This interest in the promise of water resources for municipalities is not confined to our community but is statewide evidenced by the interest. Private utilities in our state will never be able to explain why a state with more water resources for its size than any in the nation, should be one of the two that impose the highest retail electric rates in the nation.

In conclusion, as we confront the year of 1946, this will establish the tomorrow of today, let us in effort, sacrifice and endeavor train our abilities in the direction of a goal that has been for years the promise to be recognized by our complete victory over sources of evil and constantly remember that its security will rest on the abolition of hate or intolerance that always gives rise to the disturbance of the peace. I wish you all a Happy New Year.

HENRY J. PROULX.

City Government

CITY COUNCIL

Mayor

Elected annually on the fourth Tuesday of November. Salary \$200.00 a year.

Henry J. Proulx

Councilmen

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	Term expires
Ward 1—Allen Atwood	January 3, 1947
Frank O. Sargent	January 3, 1948
H. Asa Bennett	January 7, 1949
Ward 2—Henry Chamberlain	January 3, 1947
Auguste J. Massicotte*	January 3, 1948
Wiggin S. Gilman	January 7, 1949
Ward 3—Scott Coen	January 3, 1947
Earl S. Sargent	January 3, 1948
Albert Perreault	January 7, 1949

* Lawrence Gauthier was elected April 9th to fill the unexpired term of Auguste Massicotte.

Standing Committees of the Council, 1946

Highways—Gilman, Perreault, F. Sargent

Sewers—Bennett, E. Sargent, Chamberlain

Fire—Coen, Chamberlain, Bennett

Police—Perreault, Coen, Atwood

Ordinance—F. Sargent, Coen, Chamberlain

Street Lighting—Chamberlain, E. Sargent, Atwood

Claims—E. Sargent, Gauthier, Bennett

Health and Welfare—Atwood, Gauthier, Coen

Public Lands and Buildings—Gauthier, E. Sargent, Perreault

Daniell Park Development—Gilman, E. Sargent, Perreault, and George Lacroix, Michael Burke

Finance Committee—Mayor, Gilman, Perreault

Schools—Mayor, Gilman, Perreault

City Clerk, Tax Collector, Purchasing Agent, Clerk of Board of Assessors and Custodian of Memorial Hall

Elected annually by the City Council. Salary \$2640.00 a year.

Mildred S. Gilman

Deputy City Clerk

Elected annually by the City Council. Salary \$36.30 a week.

Olive C. Sawyer

Overseer of the Poor

Elected annually by the City Council. Salary \$27.50 a week.

Perin E. Hersey

City Treasurer

Elected annually by the City Council. Salary \$200.00 a year.

Hazle Michaud

City Solicitor

Elected annually by City Council. Salary \$660.00 a year.

George T. Ordway

Assessors

Elected annually by City Council. Salary \$500.00 a year, each.

Ward One

Ward Two

Ward Three

Lawrence Collins

Wiggin S. Gilman*

Ernest Astbury

* Served without compensation.

Highway Commissioner and Tree Warden

Elected annually by City Council. Salary \$17.85 a week.

Henri E. Hebert*

* Resigned, August 7th. Hector Dion appointed to fill unexpired term.

Welfare Commissioners

One member from each ward elected annually for a term of three years.
No salary.

Term expires

Albert B. Guay

February 7, 1947

Louis H. Douphinett

February 5, 1948

J. P. Blais

February 4, 1949

POLICE DEPARTMENT

Chief of Police

Elected annually by the City Council. Salary \$48.60 a week.

Charles E. Legare

Deputy Chief of Police

Elected annually by the City Council. Salary \$40.50 a week.

Clarence Lacoursiere

Night Officer, Main Street

Appointed by the City Council. Salary \$10.50 a week.

Warren E. Danforth

Night Officer, Central Street

Appointed by the City Council. Salary \$10.50 a week.

John Pikor

Special Police Officers

Frank Landry	Frank Piwonski
Carl Hunt	Thomas Fox
Joseph Miquelon	Ralph Colcord
Harold S. Colby	Eli Gagne
Joseph Rayno	Martin Streeter
William Beauchemin	George Lacoursiere
Frank Mazur	Benjamin Brown
Peter Plizga	Henry Roy
Teofil Sokul	Ervin Kelley
Auguste Massicotte	Leslie Boomhower
Walter Decato	Sidney Martin*
Harlan Leach	Hubert Parker
Vernon Piper	Maltheno Clark
Walter Ccx	Albert Drew*
Nicholas Demos	Arthur Pinard
James Nowell, 3rd	Paul Hawthorne
Arthur Farnsworth	

For beach during summer months, Harold A. Packer and
Gerald Keating

* Albert Drew and Sidney Martin appointed regular police officers
August 5th.

FRANKLIN MUNICIPAL COURT

Clerk

Appointed by the Justice. Salary \$275.00 a year.

Edward L. Welch*

* Deceased. Howard Garand appointed.

Justice

Appointed by the Governor and Council. Salary \$726.00.

Robert T. Hoyt

Probation Officer

Appointed by the Justice. Salary \$121.00 a year.

Jean M. Shaw

FIRE DEPARTMENT

One chief and two assistant engineers elected annually by the City Council. Pay schedule: Chief Engineer, \$363.00 per year; two assistants, \$242.00 a year; captains, \$121.00 a year and \$.91 an hour; firemen, \$60.50 a year and \$.73 an hour. Superintendent of fire stations to receive no hourly service pay. Driver-mechanics, \$39.60 a week each.

Chief Engineer

Leslie Boomhower

Assistant Engineer

Frank Butler

Assistant Engineer

Clarence Thompson

Firemen

Hose Company No. 1

Bernard Cook, Captain, 10 men

Engine Company, No. 1

Robert O. F. Cunningham, Captain, 15 men

Hook and Ladder Company

Moise Mercier, Captain, 15 men

Janitor of Memorial Hall and Heating Plant

Elected annually by City Council. \$37.40 per week.

Ralph Colcord

Board of Water Commissioners

Two members elected annually by the City Council for three years.

No salary. Salary of Clerk \$300.00 per year.

	Term expires
Peter P. Charland, Geo. H. P. Perkins	January 3, 1947
Edmund J. Garneau, Alexander B. Hebert	January 3, 1948
Ernest Michaud, Harold S. Colby	January 7, 1949

Superintendent of Water Works

Appointed by the Water Commissioners.

J. Lester Merrill

Board of Park Commissioners

Established March 3, 1913. One member elected annually by the City Council for three years. No salary.

	Term expires
Peter Gauthier	March 6, 1947
George Lacroix	March 5, 1948
Robert Moody	March 4, 1949

Board of Health

Elected annually by the City Council. Secretary and Chairman of the Board of Health and Milk Inspector, \$220.00 per year.
No salary for second and third members.

Herbert A. Griffin, Secretary, Chairman and Milk Inspector
Frank J. Kropf, M. D. Caroline Dorman

Trustees of Public Library

Two elected annually by the City Council for three years. No salary.

	Term expires
E. L. Welch, Walter F. Duffy	January 3, 1947
Alice M. Shepard, Henry J. Proulx	January 3, 1948
Bessie Rowell, Carrie Eddy	January 7, 1949

Superintendent of Fire Stations

Elected by City Council. Salary \$2059.20 a year.

Leslie N. Boomhower

Surveyors of Wood and Lumber and Fence Viewers

Appointed annually by the Council.

Ernest Smith, Ernest Elliott, Earl Picard, Martin Crowley, Milo Unwin, Edward Colby, Colin Jones and Henry Prince

Trustees of Trust Funds

One elected annually by the City Council for a three year term.

	Term expires
Perin E. Hersey	September 13, 1946
W. F. Duffy	September 13, 1947
Ernest Smith	September 13, 1948

WARD OFFICERS

Elected biennially by the ward.

Ward One

Moderator—George G. Fowler

Ward Clerk—Ely Smith

Supervisors of Checklist—Malcolm Conant, Eugene Beaupre, Jr., and Charles Slack

Ward Two

Moderator—Perin E. Hersey

Ward Clerk—Frederick Moody

Supervisors of Checklist—Lydia Rocheleau, Emma Mercier, and Lawrence Gauthier

Ward Three

Moderator—Earl Sargent

Ward Clerk—Aime Laroche

Supervisors of Checklist—Robert Bailey, Regina Mercier, and Joseph Mercier

Ballot Inspectors

Ward One—Charles Edmunds, Delia Smith, Mildred Smith, and Herbert Griffin

Ward Two—Wiggin S. Gilman, Waldo Young, Marcella Dufour, and Harold Retter

Ward Three—Bland Redman, Inez Blake, Annie Provost, and Helen Clark

Superintendent of Fire Alarm

Elected by the City Council. Salary \$100 a year.

Charles D. Cunningham

Trustees of the Webster Monument Fund

	Term expires
James S. Shaw	October 24, 1946
Joseph W. Sinclair	October 24, 1947
James H. Gerlach	October 24, 1948

Board of Education

One member elected annually for a three year term, at special meetings held for that purpose. No salary.

	Term expires
Leo Connors	January 3, 1947
Mrs. James J. Sullivan	January 7, 1948
Archie Innes	January 7, 1949

MAYORS

Frank N. Parsons	1895
Edward H. Sturtevant	1896
Charles W. Adams	1897—1898

PEISCH, ANGELL & COMPANY

Accountants & Auditors

Norwich, Vermont

January 31, 1947

To the Honorable Mayor and City Council

Franklin, New Hampshire

Sirs:

We have audited the General Fund accounts of the City of Franklin for the year ended December 15, 1946, the account with Trust Funds of the City for the year ended December 31, 1946, and the accounts of the Water Department for the year ended December 31, 1946.

It is our opinion that the accompanying Exhibits and Schedules, as indexed on the preceding pages, correctly present the operations of the City for the periods audited, the financial condition of the City as reflected in its General Fund accounts on December 15, 1946, the status of the City's Trust Funds on December 31 1946, and the assets and liabilities of the Water Department on December 31, 1946.

Yours very truly,

Peisch, Angell & Company.

CITY OF FRANKLIN, NEW HAMPSHIRE

Location of Apparatus

Hose Company No. 1, South Main Street

One Federal Truck, American-Lafrance equipped, 500 G. P. M. Pumper, carrying 1200 ft. of 2½ inch hose, 1 foam, 1 soda and acid type extinguishers, 1 24-foot extension ladder, 1 12-foot roof ladder, 6 lengths of 4-inch suction hose, 100 gallon booster tank, 150 feet of ¾-inch booster hose, 1 10-foot pike pole, 2 1⅓ tip, 2½-inch nozzles, 1 fire axe, 1 1-gallon oil can, small kit of tools. 10 uniforms.

Central Fire Station, 39 West Bow Street

Engine Company No. 1

American Lafrance Type 75, 750 G. P. M. Pumper, 40-gallon booster tank, 200 feet 1-inch booster hose, 1000 feet of 2½-inch hose, 2 smoke masks canister type, 1 24-foot roof ladder, 1 24-foot extension ladder, 2 2½-gallon soda and acid type extinguishers, 2 carpenter hand lights, 2 kerosene lanterns, 1 1½-inch fog nozzle, 1 Bresnahan revolving nozzle, 1 8-foot pike pole, 6 lengths of 4½-inch hard suction hose, 1 length of 4½-inch soft suction hose, 1 salvage cover, 1 ice chisel, 1 copper hose jacket, 10 uniforms. Radio equipped car No. 33.

Engine Company No. 2

Reo Truck equipped with 250 G. P. M. pump, 80-gallon booster tank, 150 feet of ¾-inch booster hose, 800 feet of 1½-inch hose, 2 24-foot extension ladders, 4 lengths of 3-inch hard suction hose, 6 2½-gallon soda and acid extinguishers, 1 15-pound carbon dioxide extinguisher, 1 250-watt portable lighting plant, 1 officer's hand light, 4 uniforms, 3 pails, 1 bar, 1 axe. This truck is equipped with trailer hitch for forest fire trailer and is radio equipped Car No. 32.

Ladder Company No. 1

Mack City Service Ladder Truck, 750 G. P. M. pump, 500 feet of 2½-inch hose, 281 feet of ladders, 1 deluge set, 1 cellar syphon, 1 life net, hose covers, complete lighting plant, 5000-watt generator, 1 1500, 1 1000, 2 250-watt portable flood lights, 2 2½-gallon soda and acid extinguishers, 2 lengths of 5-inch hard suction hose, 18 uniforms, 1 officer's hand light.

Rescue Company No. 1 (Special Service)

Lincoln Special Service Truck, 400 feet of 1½-inch hose, 1 pure air blower, 2 pure air masks, 300 feet of air hose (these masks are equipped with telephones), 1 H & H inhalator, 1 C & J resuscitator, 1 first aid kit, 2 drawers of first aid supplies, 1 1500-watt generator, 1 500-watt, 1 250-watt lights, 1 officer's hand light, 2 salvage covers, 1 Army type stretcher, 1 15-pound carbon dioxide extinguisher, 7 uniforms, 560 feet of ½-inch rope, 50 feet of ¾-inch rope. This truck is equipped to pull life trailer.

Forest Fire Trailer

This truck carries pump cans, small forest fire tools, shovels, also portable forest fire pump.

Chevrolet Line Truck

This truck is used for line work picking up wet hose and other trucking for fire department.

There is on hand at the Central Fire Station 3700 feet of 2½-inch hose, 750 feet of 1½-inch hose, 24 pump cans, 3 2½-gallon soda and acid type extinguishers, 2 2½-gallon foam type extinguishers, 15 long handle shovels.

Total number of hours pumping	6
-------------------------------------	---

The Board of Engineers' Report

The past year has been busy and has seen the Department extend its training into the winter months through the medium of visual education. Through this we have been able to see the different methods of fire training in the different sections of the country and abroad. This program will continue until the out-of-door program starts.

The new E. & J. resuscitator has been placed in service on the rescue squad and the H. & H. inhalator has been factory repaired and is in reserve on the squad truck.

The new forest fire pump has arrived and been placed in service on the forest fire trailer.

The board recommends that:

500 feet of 2½-inch double jacket hose

500 feet of 1½-inch double jacket hose

6 helmets

6 Fire coats

6 pairs boots

2 2½-inch fog nozzles, complete with fog applicators
be purchased.

The fog nozzles be placed on Engine 1 and Hose 1

The board wishes to take this opportunity to thank all of those who have helped to make this a successful year, His Honor, the Mayor, the Fire Committee, and Members of the City Council; to the members of the Franklin Fire Department, all ranks, for their devotion to duty. Thanks for a job well done. The Board thanks you and asks for your continued support.

LESLIE N. BOOMOWER,
Chief of Department

FRANK T. BUTLER,
First Assistant Chief

CLARENCE L. THOMPSON,
Second Assistant Chief

Police Department

Report of Chief of Police Charles E. Legare

To the Mayor and City Council of Franklin, I herewith submit my report for the year 1946:

Disbursements	4,331.03
 Balance to the City Treasurer	 \$1,838.85

HOWARD W. GARAND,
Clerk.

Franklin Public Library

Librarian's Report

To the Trustees of the Franklin Public Library:

The official ending of World War II in 1946 coincides with the ending of a calendar year, and we are reminded that while some problems of the world may have been solved, many remain and others arise as peace progresses. It is with such a thought in mind that it is possible to state that any institution called a public library, if it is of a reasonable size, is in the community for the purpose of helping many persons. We think of students, business and professional men and women, those employed industrially, parents, children, and just the average citizen of any place. With the need for current and up-to-date information on a variety of subjects the public library is one of the chief sources for what is sought.

Registrations

New borrowers for 1946 have totaled 405, but weeding of the file for removals, death or non-use of library facilities since 1943 has deleted 400 names, leaving an active borrowers' list of 2,938. Registrations averaged better than 33 per month, with an all-time high of 53 new borrowers in November, which gave the library its highest monthly circulation of the year, 3,944 volumes.

Reading Tally

The lessening of reading along the line of war and its allied interests has meant an increase in the percentage of fiction selected by readers. The division stands: fiction 59 $\frac{1}{2}$ % (an increase of 2 $\frac{1}{8}$ %), non fiction 20 $\frac{1}{4}$ % (an increase of $\frac{1}{2}$ %), and juvenile books 19 $\frac{1}{8}$ % (a loss of 2 $\frac{1}{8}$ %), when compared with the figures of last year.

Inter-library Loans

This year the figures for books borrowed (135) and loaned (125) are almost equal. Many books come and go through the State Library as a clearing house. This year the Belmont Public Library and our library have exchanged two groups of mystery and detective stories for the fans in both libraries.

Statistics

Books

	Adult	Children	Total
Number of volumes at the beginning of the year	21,447	2,188	23,635
Number of volumes added	1,241	261	1,502
	22,688	2,449	25,137
Number of volumes withdrawn during the year	300	247	547
	22,388	2,202	24,590
Total number of volumes at the end of the year			
Number of magazines currently received:	111		
Number of newspapers currently received:	6		

Circulation

Number of volumes adult fiction borrowed	25,003
Number of volumes of children's books borrowed	8,252
Number of volumes of adult non-fiction borrowed	6,005
Number of magazines borrowed	1,555
Number of pamphlets borrowed	962
Total number of volumes borrowed in 1946	41,777
Per capita circulation	6.19

Trust Fund Purchases

Anna G. Blodgett Fund: American Guide series (9 states); Facts on File service; 1946 New Hampshire Register; Album of American History, v. 3; Wilson bill of reference books; Rivers of America series (Housatonic and Colorado rivers).

Frank and Ella Chapman Fund: 1946 Americana Annual; Williamsburg in Photographs; Davidoff, World treasury of proverbs; Graves, Trees, shrubs and vines for the northeastern United States; Steel, Let's visit Mexico; James, Romance of the national parks; Clark, Chief patterns of world drama; Crow, Epic of Latin America; Chapman, History of Spain; Benjamin, Autographs: a key to collecting.

Jeremiah Clark Fund: 1945-46 Book of the states; Wells, Treasury of names.

Frank L. Morrison Fund: 1946 Britannica year book; White's conspectus of American biography; Miller, Schools of New England; Good, Guide to colleges, universities and professional schools in the U. S.; Dewart, Educational institutions of New England.

Helen Pike Parsons Fund: Ford, Button collector's history; Junior Literary Guild books (four groups include 48 titles).

E'sie Y. Clossen Fund: Britannica Junior, boys' and girls' encyclopedia in 12 volumes.

Contributors' Fund: Woods, Treasury of the familiar; Sechrist, One thousand poems for children; Fishbein, Popular medical encyclopedia; Wilson, New crops for the new world; Reti, Masters of the chessboard; Mitchell, History of the modern American navy; Latourette, Short history of the Far East; Book trails, 8 volumes.

The Building and Equipment

The continuance of annual improvements has brought permanent additions that make possible a better library and the service it is able to offer to the city. A bronze hand rail added to the entrance steps has been much appreciated. The entrance hall, the main stairway and Library Hall were redecorated during the spring and fall months. Fluorescent fixtures were installed over the stage and in the work-staff room, resulting in greatly improved lighting for all purposes.

A thirty-tray shelf list cabinet was secured to replace the fifteen-tray cabinet in use for forty years and crowded for several years. The trustees of the Derry Public Library purchased the small cabinet. A new Royal typewriter, with card attachment, ordered last March, was delivered the day after Christmas. A book-width reading glass has been added for the use of those who

find certain print hard to read. Three plain, second-hand book-cases were purchased to help in shelving and handling the generous gifts of books received during the past year. An electric hotplate, with other small equipment, has been added to the staff room facilities.

Meetings

Regular or special groups meeting within the library have been the Board of Library Trustees, the Woman's Club, Hospital Aid, Y. M. C. A. Committee, Taxpayers' Committee, Merrimack County Extension Service, visiting school groups and TB seal tag day workers.

Exhibits

Two special exhibits were arranged outside the library premises and are described under Publicity.

Exhibits at the library have been Japanese Surrender Ceremony souvenirs; Veteran handwork; Japanese children's clothes, money and souvenirs; Foreign stamps and covers, also special cachets; War souvenirs, coins and paper money from European and Pacific theatres; Grenfell exhibit; Franklin industries; Button collection; New Hampshire display, including local minerals; Proctor pewter exhibit; Lithium (Things of Science); Book curiosities; Foreign Christmas cards; and TB Seals and stamps, local and foreign.

Wood carving done by Dr. S. R. Detwiler made a highly appreciated exhibit during the summer months.

American Art Week was observed by a small exhibit of reproductions of Currier and Ives prints, accompanied by descriptive books and magazines.

The Schools

The work of the schools and the library go hand in hand, as it were. We mention each year reference work, grouping of books, preparation of bibliographies, loan of book jackets and classroom libraries, all of which continue as in the past.

Several school groups visited some of the year's exhibits, and colored pictures were shown to two classes from the Nesmith school.

In November the librarian visited Hancock, Junior High and Nesmith schools in the interests of the Treasure Chest project to be undertaken during the winter.

This year 636 books have been loaned for school room use.

Memorial Book Shelf

The appeal and growth of the Memorial Book Shelf, initiated late last year, has been pronounced. Forty volumes have been added as memorials. Last year's report described the idea in detail. The books are grouped together and their book jackets show what is in the collection, when the books are in circulation.

Publicity

Brief, annotated lists of recent books have appeared frequently in the local paper under the heading "Suggestions". Comments from various sources show that readers watch for the lists and find them of interest and helpful in the selection of current reading.

An exhibit of house plans and books on the building and repairing of homes was arranged in the window of the Public Service Company of New Hampshire. During Good Book Week, when the slogan was "Books are bridges" the special library exhibits of the week were supplemented by those in twelve store windows about town. The books displayed in each store were chosen according to the stock or service of that store.

Individuals and businesses have had books of special interest called to their attention by telephone or letter.

Trustees

The death of Mr. Edward L. Welch, in June, deprived the library of the interest and advice of a valued trustee and friend.

The resignation of Miss Bessie C. Rowell, secretary of the Board for several years, was a matter for regret. Rev. Wesley A. Paige was appointed to fill her unexpired term.

Two trustees, Mrs. Alice M. Shepard and Mrs. Carrie L. Eddy, attended the Fiftieth Anniversary of the Gordon-Nash Library at New Hampton in June.

The Staff

The library staff has remained the same during the past year. The salaries of the staff, including the janitor, were increased approximately 10% last May, to help meet the rising cost of living.

Professional Privileges and Duties

In June the librarian enjoyed attendance at the meeting of the American Library Association in Buffalo. This was the first national meeting since before the war, and brought visiting librarians up-to-date in their particular fields. The local library is an institutional member and the librarian a regular member of A. L. A.

September 19 the Franklin library was hostess to a neighborhood library meeting, with librarians, trustees and friends attending from several surrounding and more distant towns.

During the year the librarian gave three book talks to local groups and is serving as the Adventures in Reading representative of the New Hampshire Library Association.

Gifts

Mrs. Walter E. Burleigh made the library a valuable gift, with the presentation of her private library of over 2,000 volumes. The gift provides new titles for the library, replacement copies for well-worn standard works, and a good number of books of historical value.

Mrs. Robert M. Leach has given a collection of over one hundred books.

Mr. and Mrs. W. B. Daniell have presented a group of adult and juvenile titles and many magazines.

Mr. Chester A. Griffin has provided authentic historical material in permanent form, for future reference, by presenting the library with a complete, spirally-bound file of News Digest. This popular weekly sheet was sent to all Franklin men and women serving overseas July 28, 1944-October 12, 1945. The gift supplements the servicemen's album presented by Mr. Griffin last year.

Gifts to the Memorial Book Shelf have been mentioned elsewhere.

Local donors not mentioned previously have been: Franklin Rotary Club, Mrs. Frances Carter, Mrs. Bertha Cross, Merrimack Farmers' Exchange, Mr. Walter F. Duffy, Mrs. Alice M. Shepard, Rev. Wesley A. Paige, The Journal-Transcript, Holmes & Nelson, Cutter's Esso Service Station, Franklin National and Savings

Banks, Mr. and Mrs. Richard W. Sulloway, Mr. Richard W. Sulloway, Jr., Mr. and Mrs. Joseph Barnes, Rev. and Mrs. George A. Mark, Mr. and Mrs. George T. Keegan & Co., Baker's Remnant Store, First National Stores, Inc., Max Solomon's Woman's Shop, Grevior's Furniture Store, Franklin Building and Loan, Moscardini's Market, The Bakeman Shop, also those who have given duplicate magazines.

The close of 1946 brings the Franklin Public Library to the year that celebrates the 40th anniversary of its place in the life of the community. As one looks back it would seem that much worthwhile service has been provided. It is evident that the library has grown to be an institution that would be missed by many local individuals and not a few in surrounding towns, for library service has broadened through the years. The present members of the staff take a forward look and anticipate still greater service, as opportunities appear and sufficient support permits expansion.

Respectfully submitted,

MILDRED J. PEASLEE,

Librarian.

MARGUERITE E. HOLMES,

Treasurer

Board of Education

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

Introduction:

I respectfully submit my second annual report as Superintendent of Schools for the City of Franklin. This report covers the calendar year of 1946. Franklin is fortunate in having schools that are well-organized and well-staffed. The community is interested in the education of its children, and the advantages that it affords compare well with those offered by communities its size, in this or any other section of the country.

Pupil Population:

The impact of an increasing birth rate during recent years is beginning to be felt in the primary grades, particularly at the Hancock School. It has been necessary to have an additional first and second grade classroom in operation this year because of an enrollment of forty-seven pupils in the second grade and of thirty-eight in the first grade. The grade groups on the primary level should seldom, if ever, exceed thirty; twenty-five to twenty-seven pupils being an ideal number. This year's third grade at the Hancock School numbers forty-one. The result of having such large groups is that the amount of individual instruction that can be given pupils is necessarily limited. It may be necessary in the coming year to devise some plan whereby the size of classes on the primary level in the Hancock School may be reduced.

The splendid attendance record maintained by most pupils in the Franklin schools is a tribute to the fine work done by Miss Marion Moynihan, the School Nurse.

Personnel:

Eight faculty changes in the year just closed have created administrative problems for the various principals and the Superintendent. While it is undoubtedly true that some turnover of teaching personnel is desirable, it appears that this year, as in years past, many whom the schools can ill afford to lose have left for one reason or another. It is becoming increasingly difficult to fill vacancies created through resignations, and the problem of maintaining a high-grade staff in the schools of Franklin should be one with which the entire community is concerned.

During the past year, the following changes have taken place. At the Franklin High School Mrs. Claire Davis, for many years teacher in commercial subjects, left the profession to be with her husband. Her place was taken by Miss Rita King, a 1946 graduate of Mount St. Mary College. Mrs. Reta Bigelow, teacher of mathematics at the high school, resigned to accept a position in the same community with her husband. Her place was taken by Mr. Alger S Bourn, who comes to Franklin with eight years of teaching experience in private schools and who has a splendid educational background. Miss Catherine Sullivan resigned to accept a position in the schools of Northampton. Her place was taken by Mr. Gerald W. Boicourt, a graduate of the University of Utah, who had some teaching experience in the Navy and at the Magna High School in Utah. In the Junior High School, because of the resignation of Mr. Albert Merrill to accept a position at the Plymouth Teachers College and of Miss A. Louise Wood who left to go into another field of endeavor, it was possible to combine the two positions and to employ Mr. Edwin Chamberlain as Junior High School teacher of science and mathematics. Mr. Chamberlain is a graduate of the University of New Hampshire in the class of 1933, but has had no previous experience as a teacher. The resignation of Mrs. Eugenia Carroll to be with her husband who has returned from the service, made possible the appointment of Mr. Earl Harris, a former teacher of the Franklin High School. The turnover in the elementary schools has been relatively low. Miss Barbara Clark left her second grade position at the Hancock School to be married. Her place was taken by Mrs. Frances Smith from Tilton, an experienced primary teacher. The overflow of the first and second grades is being handled by Mrs. Dorothy Kenny, a teacher with some previous experience in the schools of Franklin.

Mr. Francis Tatro resigned as Supervisor of Music to accept a position in Quincy, Massachusetts. He was replaced by Miss Marion Moses, who had served as wartime appointee during Mr. Tatro's previous absence for work with the armed forces.

There can be no doubt but that the turnover in this and other years is due, in a measure, to the salary policy that has been in effect in this community. Teachers should be paid a wage commensurate with the dignity and responsibility of the position which they hold, and they should have some assurance in regard to the ultimate potentialities of their position.

What Has Been Accomplished in 1946:

Through the cooperation of State and Federal agencies, a school lunch program, providing a hot meal at noon at nominal cost for all pupils in attendance in the Franklin schools has been made possible. Miss Marion Wells was appointed director of the program effective in September. Miss Wells is a graduate of Simmons College and has had two years' experience as Assistant Dietitian at Wellesley College. The program should do much to improve the health and educational welfare of all of the pupils who participate.

The standardization of the reading program in the elementary schools has been accomplished in the first four grades. Through the introduction of new basic reading materials, an improvement in the reading program may be anticipated. Success in school work depends in a large measure upon a pupil's ability to read. Neglect of this area will result in failure in many other subjects.

In the high school and junior high school, there have been some revisions in the courses of study, additions of certain subjects and some improvement and replacement in the textbook program. The reports of the Junior and Senior High school principals will outline these changes in greater detail.

A more effective program of standardized testing through which the abilities and the achievement of pupils in the school system may be measured has been undertaken. Over 60% of the pupils in the schools have been tested in the year just closed and the results carefully tabulated so that emphasis might be given to the proper subject matter areas.

The program in visual education under the direction of Mr. Joseph Cashman has been extended and improved. Film strips and projectors have been provided for the elementary schools, as well as the secondary schools. A program carefully correlated with the course of study has been undertaken and a more effective use of visual aids should do much to motivate the learning of pupils.

Through the sale of second-hand furniture in the barn at the Daniell Junior High School, it has been possible to install a complete communicating system in the Junior and Senior High School so that all pupils may be reached from both offices at all times. In the few short months that the system has been in operation, there is sufficient evidence to indicate that its effective use will improve the administration of the two schools.

Teachers' groups on all levels have been organized for the purpose of determining course of study objectives in basic subject matter areas. With the assistance of the State Department of Education, it is hoped that a more careful definition of the aims on each grade level will eliminate, in part, needless repetition and "gaps" in the learning process.

A revision of the transportation routes has made it possible, at but slightly increased cost, to provide transportation for elementary pupils residing in the Willow Hill area. In conjunction with the reorganization of transportation, it has been possible for us to accommodate additional secondary school pupils from Sambornton, increasing the revenue from tuition sources by approximately \$1500 yearly.

With the re-installation of the oil burner at the Hancock School, it has been possible to install the automatic stoker used at that school in the Nesmith School. The Nesmith School has been more satisfactorily heated with less janitorial responsibility than under the hand-fired method.

The machine shop in the Hancock School was colorfully re-decorated by the janitors last summer and now serves as an assembly hall and dining room at that school.

What Needs To Be Done:

The first and foremost job with which the schools should be concerned is the improvement of the educational program. The re-evaluation of curriculum procedures, the improvement of the textbooks and teaching materials, the efficient use of visual education aids, laboratory and other techniques, should be the concern of all in the School Department.

The improvement of the physical plant should be undertaken. In the past five years, much that should be done has had to be neglected. Painting and re-decorating of the interior of school buildings, as well as exterior repairs and painting are now needed.

Few public secondary schools in New England have as well laid out and as attractive campus areas as the secondary schools of Franklin. The splendid site on which the buildings are located and the fine athletic and play fields thereon should be a source of much pride to the community. Many progressive communities are concerned with the matter of providing desirable recreational areas for school pupils during out-of-school time. The possibility of providing a community center where school children and adults may enjoy various recreational activities under adequate supervision should be carefully explored. With the school plant centrally located and on spaces where there is plenty of room for expansion, it would seem desirable to plan for the future growth of the recreational program in conjunction with the school plant.

It is evident from the foregoing that your Superintendent does not subscribe wholly to the theory that the teacher is more important than the environment in which he works. However, neither would it do to underestimate the contribution that the classroom teacher makes, not only to the educational growth of pupils under his direction, but to the formation of certain basic character traits that will affect their conduct throughout their lives. The children of Franklin deserve schools in which the finest men and women in the profession are employed. This is not to suggest that the present corps of teachers is other than competent in any respect. However, as the opportunity presents itself for the employment of teachers in future years, Franklin should seek the best leadership obtainable. If this is to be done, more attractive salaries than are now offered are an absolute necessity.

The community needs to be concerned with the determination of basic objectives for school administration in Franklin. Is it better to run the schools as cheaply as possible or to run them as efficiently as possible? Schools may be operated on a bare-subsistence level and few, if any, other than trained educators will see the inroads made upon the minds and characters of the youth of the community. Franklin now has good schools. To maintain them at their present level of effectiveness will become increasingly difficult. The shortage of competent teachers will, in the next few years, have far-reaching effects upon the schools of not only this region, but of the whole country. If the school's

of Franklin are to become even better schools, the people of the community must be willing to support them on a much higher level than they have ever been supported in Franklin heretofore.

The cooperation of the members of the Board of Education, the teachers and of all other personnel in the School Department has made my job a pleasant one. The chance to help your boys and girls presents no small challenge to all of us. It is the responsibility of the community to give its most effective support to this most important community undertaking.

Respectfully submitted,

DONALD W. DUNNAN,

Superintendent of Schools.

BUDGET SUMMARY

Expenditures

FRANKLIN HIGH SCHOOL HEADMASTER'S REPORT

March 1, 1947

To the Superintendent of Schools:

This is my first annual report since returning from war service. In the year just passed, I have once again found myself deeply involved with school work and its problems. The hearty response of teachers and pupils to our persistent attempts to improve, bodes well for the future of the High School. The general spirit of cooperative enterprise displayed is indicative of constant growth. Your willingness and the School Board's readiness to contribute to our wants and needs is gratifying and encouraging.

The report which follows is broken up into definite areas of activity, but in actual operation they all blend together to form Franklin High School.

Enrollment

The trend of enrollment in High School is a matter with which we need to be constantly concerned. Its growth may reflect either an expanding population or a higher percentage of ultimate graduates from each entering class, or both. An additional factor to be considered this year is the war's end. There is no longer a need for young men to leave school for entry into the Armed Services. Our school population this year reflects all of the factors mentioned. The enrollment at the close of school in June of 1946 was 234. Our enrollment as of January 1, 1947 was 261; Seniors 71, Juniors 94, Sophomores 96. During the school year 1945-46, we had 21 pupils drop out of school—5 to join the Armed Services—3 to seek employment—1 because of poor health—7 because of lack of interest or offerings, and 5 who transferred to other schools. Up to January 1, 1947, we have lost 14 pupils—1 to join the Armed Forces—6 to seek employment—2 because of lack of interest or offerings—5 who transferred to other schools.

The large number now enrolled in the 9th grade at Junior High School would indicate an entering class next September of over 100, and consequently a high school population of close to 300 pupils for the next school year.

Curriculum

Our graduates, on the whole, terminate their formal education when they receive their high school diplomas. The number of graduates attending higher institutions of learning rarely exceeds fifteen per cent of the class. It becomes necessary, then, to gear our offerings more and more to the group we know will complete formal training in high school. In doing this, we must be ever aware of vocational needs as well as cultural needs. A proper balance between the two must be established with careful consideration being given to local and state environments.

In our efforts to improve the curriculum, we have dropped those courses of study which were primarily instituted to train young men for war service. These were:

1. Fundamentals of Machines
2. Fundamentals of Electricity
3. Aeronautics
4. Radio Code Practice
5. Fundamentals of Radio

With the exception of Radio Code Practice and Aeronautics, the fundamentals involved in the other three courses are found in present offerings.

Additions to our curriculum for this year were:

1. Economic Geography: Today we live in one world. Isolationism is dead. The global concept must become habitual. World understanding must grow. One of the best means for developing world cooperation is through commercial relations. Its study today is imperative.

2. Senior Science: Wherever we turn, we meet up with science in one form or another. We feel that no boy or girl, who is capable of the work, should graduate without one year of study in the field of science beyond the study of Biology. Its inclusion in the curriculum as a required subject makes certain that minimum goals are achieved.

3. Personal Typing: The typewriter becomes more and more important with the passage of time. Ever so many other machines are operated with typing skill as a basis. Personal Typing is therefore possible for all who will take it.

4. Music Theory and Appreciation: Too often the practical aspects of living blind us to the joy and happiness that may be ours through participation, actively or passively, in music. This course is intended to present knowledge with relation to music and allow an opportunity for listening to and appreciating music.

As we look ahead to a new year, there are certain areas of endeavor which need further development if we are to achieve our goal—a well rounded education for each boy and girl. A brief outline of some needs follow:

Art: There is no instruction in Art in High School. I believe that there should be. Many pupils have graduated from F. H. S. in recent years having displayed definite talents in Art which we were unable to develop.

An art instructor for the schools of Franklin would be able to develop existing talents and aptitudes for all pupils.

Band: The need for a school band is great. There is much interest in, and talent for such an organization. Proper band instruction for another year is highly desirable.

Social Studies: Democracy still fights for the retention of its position in a world now replete with confused governments. In such a struggle, it is our duty to establish within all pupils such an understanding and devotion to democratic principles as will bear up under the propagandist attacks of other nations. In order to more nearly accomplish this end, I recommend that the following change be made.

1. History of Civilization and Modern European History be combined into a course called World History to be offered in the Sophomore year.

2. American Problems of Democracy be offered in the Junior year.

3. Sociology and Economics be dropped since the work of these classes would be accomplished in the course under 2 above.

Automobile Driving: The auto is a common vehicle of transportation today. The need for a full knowledge of the present day requirements for good driving habits becomes very apparent from a study of today's accidents. Consequently, every effort possible should be made to incorporate a regular course in the curriculum for the purpose of promoting such habits as will lead to intelligent driving.

Physical Education

The war which has just ended proved beyond any question of doubt that too many of our young people reach eighteen years of age with many correctable physical infirmities. It is conversely agreed that a well organized program of physical education which includes health instruction, physical and dental examinations with remedial follow up work would be of positive aid in fostering the development of healthy young men and women. It is therefore necessary that classes in physical education, on a basis providing for at least two periods of health instruction each week be established as soon as possible.

Locker facilities for physical education classes at the present time are inadequate and unsatisfactory. In order to provide space for gym clothing, it is necessary to assign hall lockers for gym use. Each locker is now used for gym clothing by two persons. The increased enrollment next year will make this problem more acute than ever. It is urged that proper locker facilities for gym pupils be established before the beginning of another school year.

The organization of physical education classes outside and beyond the area of athletic play is now impossible because of the lack of equipment. If our program is to enable boys and girls to develop all parts of the physical body, then suitable equipment is vital and must be purchased. Proper equipment and good instruction, coupled with health training, will make possible a program of physical education which will render positive aid to all in physical growth and mental alertness.

Audio-Visual Education

During the school year, a great deal of progress has been made in establishing a sound, functional program of Audio-Visual Aids. Under the direction of Mr. Joseph Cashman, sub-master, the program has developed direction, continuity and self-analysis. As time goes on, it should continue to show growth in its ability to assist teachers in making learning more effective.

The program, as we know it today, was inaugurated late in the 1946 school year. A series of meetings for the purpose of educating teachers to the availability and use of audio-visual aids came first. With the advent of the new school year, a schedule of films was established for all departments. Sixteen subject matter areas are now being helped by our film program. Following each film showing, an evaluation of the film's worth is being made by the teacher and these will help determine the film choices for another year.

In addition to films, the program utilizes the new communication system for channeling programs direct to one room or any combination of rooms. Such programs may make use of transcription, radio broadcasts, or pupil presentations. A voice recording machine and portable sound system are added devices for creating more effective learning procedures.

In order to maintain equipment for constant operation, Mr. Cashman has trained a corps of student operators who are fully capable and who are available throughout the day.

The demands which are now being placed upon secondary education presume more rapid and more effective teaching in all areas of study. Proper use of Audio-Visual Aids will provide assistance in attaining this goal. We must continue to be alert to the means at our command for extending the scope of learning and for obtaining a greater degree of understanding and mastery.

Veterans

During the past year, we have given particular attention to the educational needs of Veterans. During the Spring of 1946, we made it possible for two veterans, graduates of Franklin High School, to complete a full year's work in Math and Science respectively, thereby making it possible for them to enroll in Engineering at the University of New Hampshire.

Since January 1, 1946, Franklin High School has granted diplomas to seventeen veterans. All of these veterans were former Franklin High School students. The additional credits needed for a diploma were earned in one of two ways:

1. By receiving credit for training (basic-special schools) received while in the service.
2. By taking and passing satisfactorily the General Educational Tests as recommended by the American Council of Education.

At the present time, there are seven veterans enrolled in high school of whom five are Seniors, one a Junior and one a Sophomore.

Guidance

The program of Vocational and Educational guidance continues to grow as an integral part of the total high school program. The testing program conducted with the Junior class on November 19, 1946 marks the third consecutive year in which the Boston

University Testing Bureau has visited Franklin High School. The testing, correcting, graphing and general interpretation of class results is done by the bureau. The individual counseling, based on the battery of tests in question—plus other testing done at previous times—plus school record—plus all other pertinent information—is used as a basis for advisement.

The increasing importance of testing and its interpretation for both group and individual counseling makes necessary the availability of a person who is an expert in such matters, and who has the time to devote to this work. At the present time the task of interpretation and of counseling is being done by myself with assistance from Mr. Cashman. The young people we work with are in need of more time and attention than we have to give them. It is strongly recommended that an additional member be added to the teaching staff for the specific purpose of further developing the program of educational and vocational guidance.

The scope of the guidance needs in Franklin Schools is more than one person could adequately cope with, but the improvement in developing an over all program with continuity from the grades through high school makes such a position defensible.

Activities

Our program of activities is designed for all pupils. There is sufficient variety to meet the needs of every boy and girl. In the area of competitive sport, we have teams in Football, Field Hockey, Ice Hockey, Basketball (boys and girls), Track, Baseball, Softball, Tennis (boys and girls), Golf (boys and girls), Cheer-leading, Intra-mural Basketball (boys and girls).

In the area of non-athletic activity, we have a Swing Club, Dramatics, Debating, Hi-Y, Sewing Club, Rifle Club, Photography Club, Boys Glee Club, Girls Glee Club, Ski Club, Newspaper Club and Y-Teens.

In addition, our pupils have further opportunities for development of leadership through participation in Student government activities. The Franklin High School Activities Association Advisory Board, The Student Council and the Assembly Council are all active aids in establishing self-responsibility in pupils.

This entire area of work is financed by the students and admission fees, and its present sound financial condition bespeaks the quality of work displayed by teachers and pupils, and the extent to which responsibility is shouldered.

Cafeteria

The Superintendent of schools is to be commended for the vigor and determination displayed in establishing a hot lunch program in the high school as a distinct operation from the Home Economics department.

The program under the guidance of Miss Marion Wells is functioning well. The new equipment which has been obtained this year makes the task lighter and more efficiently performed. Though we do not have proper seating, our daily subscribers will average over one hundred and sixty.

It has always been a pleasure to work in Franklin. All who have interests in education are cooperative and willing to help bring improvement about. It is continually inspiring to work in the midst of such an environment. It is to be hoped that the people of Franklin will never lose sight of the fact that their greatest asset rests in their youth and that better educational opportunity for them will always result in an improved community.

EDWARD A. SILLARI,

Headmaster.

DANIELL JUNIOR HIGH SCHOOL

PRINCIPAL'S REPORT

Mr. Donald W. Dunnan
Superintendent of Schools
Franklin, New Hampshire

Dear Mr. Dunnan,

In submitting to you this twenty-third annual report of the junior high school I would like to review the year 1946, to ask you to re-read our report for 1945, and to present some of our needs for the future.

Whatever the year may be there are certain facts that cannot change, namely—

1. No school can be stronger than the weakest teacher therein so provision for expert teaching must be made.
2. The center of every school administrator's and teacher's thinking and effort is the individual pupil who is unlike any other child in the world. Curricula, physical set up, ideal school environment play important parts in providing for individual differences but an adequate staff of well-trained sympathetic teachers is the solution.
3. The junior high school is the adolescent's own opportunity to have his needs considered and provided for. That is the primary purpose of such an organization.

It is generally conceded by experienced educators that the pupils in a junior high school are at their formative period and it is here aptitudes become noticeable, attitudes toward people, religion, work, and play tend to become stabilized, and the physical well being of the individual becomes all important. It is here the adolescent becomes a definite personality needing guidance as never before. After nearly a quarter of a century working with pupils so chronologically grouped, we feel justified in saying a definite 6—3—3 plan is the most beneficial to the greatest number of future citizens.

During this last year we have increased the integration between the two secondary schools. In several ways it has proved advantageous while in other aspects it has increased the problems of both organizations. We feel such arrangements could be and should be ironed out to the advantage of both schools by the headmasters.

Our tuition enrollment shows pupils from Hill, Sanbornton, Andover, Boscawen, South Danbury, and Salisbury and the reasons they give for attending Franklin schools are the advantages they receive. That in itself is a challenge to our entire program of providing adequate physical, mental, social, and moral guidance for all.

In every report for many years we have stressed the need of facilities which would enable us to open more vocational interests to our boys and girls, to

1. A course in elementary agriculture giving pupils a chance to learn scientific methods of using their land to an advantage. Our purpose is not to make farmers of everyone but to create one more way of either earning a living or spending leisure hours pleasantly and profitably.
2. Our print shop has materialized to a certain extent but to enable a large group of interested pupils to have sufficient instruction we need an instructor who has had either practical contact with a print shop or one who has a teacher's college credit for such a course. Thus far only a few have had an opportunity to learn even the simplest rudiments of type setting, parts of the press, care of type, and simple printing. Again, we are not attempting a mass production of printers but are opening one more vocational door.
3. A school system the size of Franklin's should offer a course in drawing and painting that every child may develop not only an ability to express his ideas in drawing but also that he may appreciate the beauty surrounding him. Every future home will be pleasanter to the eye if its founders understand space relations, picture hanging, artistic arrangement of furniture and many related problems. An Art supervisor should be added to our teaching personnel.
4. In school, as in all walks of life, there are those who for some reason are unable to cope with all subjects offered in our schools. We have always been keenly aware of these

pupil losses and in so far as possible have tried to remedy them or offer something in their place. Some teachers are very successful but can not provide all a pupil needs due to his regular class duties.

A specially equipped room or suite of rooms with a trained instructor could open an entirely new world to our less fortunate pupils and we feel it is a definite need.

For at least six years the principal has had School Board permission and definite plans for such a set-up but the space has been filled with cast offs from all buildings. Shall we continue to utilize this pupil-needed space for never-to-be-needed junk?

5. Remedial Reading is another "must" and a beginning has been made this year. We shall expand this remedial program all along the line doing whatever we can in all classes for those who have particular needs. To date regular teachers have done whatever they could along this line but a specially trained instructor is the only correct solution to this problem.

The junior high school gymnasium has served the schools and community in a remarkable manner for the entire life of this school. It has possibilities which have never been realized but about which we have dreamed, planned, sought for, and pled for but no provision for accomplishment has ever been made. Careful planning and wise expenditure of funds should make a place for activities heretofore not offered. Every square foot of space can be utilized to develop the type of citizens schools are expected to send out into the world.

The only suggestion anent the above that I will make is regarding the use of the gym on Saturdays and holidays. From early morning until five o'clock on such days the gym is crowded with boys from every school in the city. It is a fine thing except no one is responsible for them so only a small number have a chance to play. The city would render valuable service to children and their parents if they would hire a responsible young man to be present on such days to organize the boys and girls into groups, supervise their play, have oversight over the building while there and thus relieve Mr. Holmes from this added burden.

Outstanding Achievements of 1946

Enrollment—January 1, 1946

Grade	Boys	Girls	Total
7	34	31	65
8	32	34	66
9	71	42	113

The changes in our personnel, the first since before the war: Mr. Albert Merrill, teacher of geography, went to Plymouth to become seventh grade teacher in the training school. Miss Louise Wood returned to Portsmouth to do Y. W. C. A. recreational work. Their positions were filled respectively by Mrs. David Carroll and Mr. Edwin Chamberlain.

Through the efforts of Mr. Joseph Cashman, the ninth grade was given the aptitude and guidance test with the twelfth when they came from the Boston University Bureau of Testing. The profiles made from these tests have proved very helpful to teachers and pupils.

Mr. Cashman, as director of visual education, has made it possible for the junior high school to use the projection room in the high school and therefore has made available movies pertaining to practically every subject taught. We consider this most valuable as many learn more quickly by seeing than by hearing.

Again let me say our health program directed by Miss Marion Moynihan is second to none in the state. I urge you to read her report carefully and to note all each child receives toward his greatest and most important asset,—health. We feel that this work is the most important in the entire school program for poor health keeps one from receiving and from giving what the world has a right to expect from him.

The lunch program has proved its worth in many ways. We will cite a few noticeable changes,—improved scholarship, less tardiness, pupils more alert than when they ate a cold lunch, and increase in weight in some instances.

In connection with milk and hot lunch program we are sorry to be unable to carry out our rest program as in former years. Many underweight and neurotic pupils received their real start in school from these systematic rest periods.

During this year all pupils have had two regular periods of physical education per week and junior high school boys have had three periods.

In our administration, we have tried to provide for every pupil's need in so far as knowledge, ability, and equipment would allow and our purpose has been to give each child his spiritual, mental, social, and physical heritage supplemental to his home training.

Much of the social training our pupils receive comes through the patient and tireless efforts of Mr. Sidney Holmes. Boys and girls spend every possible minute in the "Play Room" which has been made possible entirely by Mr. Holmes. He sponsors tournaments of all kinds and teaches pupils to play tennis, badminton, checkers, and ping pong. Good sportsmanship, fair play, and worthy use of leisure time are being taught by all he does.

Teachers, parents, and pupils can never fully appreciate nor be sufficiently grateful for the far reaching influence Mr. Holmes has upon all who come in contact with him.

Pupils have responded generously to War Bonds, Junior Red Cross, Foreign Aid, Tuberculosis Seals, and Christmas gifts.

Let me mention our Club program based upon pupil interests and presented for the purpose of teaching everyone how to fill his leisure time advantageously. The greater the variety of clubs the more interests we can awaken and often times real talent is developed.

List of Clubs:

Stamp	Scrapbook
Isaak Walton	Camera
Rifle	Archery
Obstacle Golf	Square Dancing
Tennis	Bicycle
Checker	Cartoon
Reading	Social Dancing
Bowling	Rummey
Music	Collectors
Sitting Games	Miniature Furniture
Teen-Age Book	Crocheting
Boxing	Art
Thimble	

For the junior high school teaching staff may I express appreciation to Superintendent Dunnan and members of the School Board for all their efforts in our behalf.

If Franklin wishes its schools to turn into its citizenry better prepared, more versatile, fairer minded, and more intelligent citizens through its channels must come the monetary provision for all these needs which are not superficial but vital to every child.

Respectfully submitted,

BESSIE C. ROWELL,

Principal.

SCHOOL NURSE'S REPORT

Mr. Donald W. Dunnan

Superintendent of Schools

Franklin, New Hampshire

Dear Mr. Dunnan:

Good health is our most cherished possession. Doctors, nurses and scientists work constantly day after day to aid us in keeping this most precious possession. As we count our blessings; a home, a family, adequate food, good health, let us not forget that the greatest of these is health. Good health in growing children depends upon:

(a) The development of healthy habits such as adequate sleep, rest, exercise, a well balanced diet, personal cleanliness and healthy mental attitudes.

(b) The removal of existing physical defects such as bad teeth, infected tonsils, adenoids, poor vision and impaired hearing.

Tuberculosis is an acquired disease, usually the result of close association with an individual with open tuberculosis. The white plague is still the leading cause of death in the 15 to 25 age group. The school can especially aid in the eradication of this disease by thorough education of pupils concerning the nature of this dis-

ease and through cooperation in case findings. Our case finding plan consisted of patch testing, chest clinics and chest X-rays. Two chest clinics were held in January and in June, 1946. These clinics were in charge of Dr. Robert Kerr of the New Hampshire Tuberculosis Association with 55 children attending. The Tuber-cuin Skin Test was given to 133 pupils and seven teachers in the Junior and Senior High School. All positive reactors to the test were X-rayed.

Deafness or impaired hearing may be hereditary; more frequently it may be caused by adenoids, diseased tonsils, or by some disease, in particular by scarlet fever. It also may be caused by hardening of wax in the ear. Earache and discharging ears indicate serious trouble and should receive the attention of a physician. Normal sight and hearing makes it easier for the child to progress satisfactorily in school and later in life. Inability to see or hear well is a serious handicap for the child attending school. The result is that frequently children are held back in school not because they are mentally slow but because of poor vision or poor hearing. Every effort should be made to correct these defects.

The children from the third grade through the Senior High School were given the 4A audiometer hearing test. A total of 1,578 children were examined during the month of October. All children who failed to pass the first test were retested. As a result of these examinations, lip reading was recommended for and is being given to 12 children. Four classes are conducted weekly by a trained lip reading teacher, Mrs. C. E. Hammond of Manchester, N. H.

Diseased tonsils may not only cause harm in themselves but infection may spread from the tonsils to other parts of the body such as the ears, sinuses, glands, joints and heart. Parents should therefore take very seriously any advice from their physician as to the need for the removal of diseased tonsils.

The Franklin Rotary Club sponsored their annual tonsil clinics during the months of June and July. The club cared for 27 cases. Twenty-two children had their tonsils removed at their own expense.

Healthy, clean teeth add tremendously to one's personal appearance. They encourage thorough chewing of food, make eating a pleasure and assist in proper food digestion. Defects of the teeth and gums often have a very serious effect on bodily health. Not only do diseased teeth and gums interfere with appetite and digestion and therefore nutrition, but they may spread infection

to the tonsils, the glands of the neck, the ears or distant parts of the body. Therefore, the habit of visiting the dentist regularly should be formed early in life, not later than three years of age, so that defects may be corrected before they can do serious harm.

One factor in the healthy growth and development of children is freedom from communicable diseases, such as measles, diphtheria, and scarlet fever. Every child should be given the preventive treatments which are available. A diphtheria toxoid clinic was held at the Nesmith, Hancock, and St. Mary's schools during the months of January and March, 1946. Two hundred and sixteen children attended the clinic.

Good posture and good health go together. The person who carries himself well enjoys many health benefits. In good posture the weight of the body is borne almost entirely by the skeleton, as nature intended it. When the posture is poor, the muscles and ligaments must bear part of the burden because the bones are not in position to give support. The worst effect of bad posture is that it prevents the lungs, heart, stomach and intestines from functioning properly. Poor circulation, digestion difficulties and other ills result. Poor posture is a sign that the child needs a careful and complete medical examination to discover the underlying cause of poor posture. Twenty-four children have attended the orthopedic clinic in Concord at frequent intervals during the year.

The physiotherapy center located in the Junior High School under the direction of Miss Ann Lally, R. N., of the New Hampshire State Board of Health continued to offer its services to those children with poor posture, foot and orthopedic defects. A doctor's order is necessary before any treatment is given.

A diet which is sufficient in quantity, variety and includes plenty of milk, fruit and vegetables gives the body the things needed for proper development and functioning. Proper diet helps assure a good physique and adds greatly to one's personal appearances. A well balanced diet, regular meals, sufficient rest and exercise and the absence of defects are all important factors to health. Poor nutrition among school children is frequently the result of poor health habits such as insufficient rest, irregular meals or unbalanced diet; or it may be the result of conditions such as diseased tonsils or defective teeth.

The number of bottles of milk served to the pupils of the Franklin schools from January 1945 to June 1946 was as follows:

Hancock School	30,555
Nesmith School	14,592
St. Mary School	23,677
Senior High School	13,159
Junior High School	10,040

The children in the elementary schools were weighed three times and measured twice during the year; a report of which was sent home to the parents. This affords an opportunity to see what progress a child is making.

Medical examinations of the pupils participating in the physical education program in the Senior High School were given by Dr. W. E. Smith, the dental examinations of these same students were given by Dr. Maurice Sargent, Dr. James Sullivan and Dr. Robert Sawyer. It is hoped that some day we will be able to have a medical examination of all pupils in the Franklin School District.

It has been indeed encouraging to find throughout the school year the same keen appreciation and earnest cooperation that is so characteristic of the interest of the citizens of Franklin in the health program of their schools.

In particular, I wish to take this occasion to thank Doctors Maurice Sargent, James Sullivan, Robert Sawyer and W. E. Smith, the directors of the Tobie Trust Fund, the Franklin Rotary Club, the American Red Cross Motor Corps, Mr. Dunnan, members of the school board, teachers, parents and pupils for their cooperation during the past year.

Respectfully submitted,

MARION MOYNIHAN, R. N

REPORT OF THE CAFETERIA DIRECTOR

This year our school lunch program, subsidized by the government as it was last year, has enlarged considerably. In the junior and senior high schools the participation has increased approximately 50 percent over last year's participation. In November we extended our program into the Hancock and Nesmith grammar schools where it has been quite successful. Since November

we have been serving about 280 lunches per day and since September have served a total of 44,170 bottles of milk in addition to the lunches. Our charge to the students is \$.20 per lunch and \$.04 per bottle of milk.

We did all of our food preparation and cooking in the Home Economics laboratory in the high school until January when we completed a small but pleasant kitchen in the Hancock school. From January on, we prepared the grammar school lunches in the Hancock kitchen. We purchased some army surplus vacuum containers which have served very well for the transportation of the prepared food from one school to another.

It has been necessary to buy a considerable amount of new equipment this year. Fortunately, the government has helped us to obtain this equipment with the new subsidy for non-food items connected with the school lunch programs. They have matched our money dollar for dollar. Perhaps, our most prized and useful possession is our electric dish-washing machine at the high school. It saves much time and insures sanitary dishes. We also have a new large refrigerator and a small one. Another most appreciated purchase is our electric potato peeler. Besides these large pieces of equipment we have bought many large pots and pans. All of this equipment has made the feeding of our students an easier and more pleasant operation.

The program could not have been a success without the untiring efforts of many. I appreciate very much the advice and aid given to me by our superintendent, Mr. Dunnhan. To all of my cafeteria workers and to Miss Pellerin, many thanks for their assistance and fine cooperation. My student workers are to be highly commended for their willingness to help out in many ways.

Respectfully submitted,

MARION L. WELLS,

Cafeteria Director.

REPORT OF DIRECTOR OF VISUAL EDUCATION

Mr. Donald Dunnan

Superintendent of Schools

Franklin, New Hampshire

Dear Mr. Dunnan:

One of the first steps taken in organizing the area of Audio Visual Aids was to make an inventory of existing equipment. The following equipment was owned or available within the school buildings:

- 1 16mm Sound Film Projector (purchased in 1940)
- 1 Opaque Projector (Baloptican purchased by D. J. H. S. graduating classes)
- 1 3"x3" slide Projector
- 2 Beaded screens (one almost worthless)
- 15 Film strips (35mm)
- 1 Projectorscope (device for projecting pictures without darkening the room)
- 1 Sound and Projection room in the High School also available to D. J. H. S.
- 1 30 watt portable amplifier with a turntable (purchased by F. H. S. A. A.)
- 1 Portable Record making and playback machine (purchased by Swing Club)
- 1 Electric record playing machine
- 2 Mechanical record playing machines
- 1 Set of Records of Shakespeare's Macbeth

The following materials were purchased:

- 3 Tri Purpose Projectors. These can be used for Film Strips (35mm) and 35mm slides.
- 35 Film strips for use in grades 1-6, both schools
- 2 Projectorscopes for Hancock and Nesmith Schools
- 12 Records of selections from American and English Literature
- 5 Film strips on punctuation for use in the High School

As you know, tremendous improvement and expansion is being made in the field of Audio Visual Education. Through these aids the pupil can come closest to actually experiencing what he studies in the classroom. We are only beginning to make use of available material. The following is a summary of preparation for the use of, and the use of these aids.

Several teachers' meetings were held with teachers from each school to (1) Become acquainted with the materials and their use (2) Determine our most immediate needs (3) Choose materials to be purchased (4) Learn the use of materials and equipment.

Fortunately there are numerous sources from which we can obtain 16mm moving picture films by paying a small service charge and paying for transportation. The average cost is under \$1.00 per film. For the school year 1946-47 there are already scheduled 175 films. Most of these will be used by two or more teachers in the High School and the Junior High School. They are being used in 16 subject areas in the High School, 8 subject areas in the Junior High School, and for assemblies in both schools. Records are kept for each film which include an evaluation by the teacher. These will be used as a basis for building the program for next year.

The film strips purchased for the elementary schools have proven to be a considerable help to the teacher by (1) Creating interest in the problem (2) Providing a real experience with the problem (3) Suggesting interesting areas for further study (4) Developing imagination in the child (5) Helping to develop his habits and skills (6) Helping to develop his thinking and reasoning (7) Providing rapid review materials. These films are used in the following areas of study in the elementary schools: (1) Health (2) Geography (3) Social Studies (4) Science (5) Reading (6) History.

The records are used in the English courses. The record making machine is used in the study of oral English and to record short plays as a part of regular class work. The new communication system is used extensively in the music appreciation course, in the study of radio plays, and the rebroadcasting of important radio programs to any or all rooms. This has proven to be an extremely valuable addition to our school equipment.

A staff of operators for all equipment has been organized. It consists of twelve boys and girls who are trained to run all projectors and sound equipment. They are chosen so that some of them are available each period of the day. Any teacher is thus able to use any piece of equipment as a part of his regular class. Many teachers operate the equipment themselves.

During the year 1947, I recommend that the following purchases be made in addition to continuing our regular program.

1. A new screen for use in the High School projection room.
2. A 16mm sound projector for use in the grade schools.
3. Additions to our Film Strip and Record libraries as soon as they become available.
4. 35mm slides to start a library of our own.

At the present time I do not recommend the purchase of 16mm film. More consideration can be given to this when our equipment has been built up to meet our needs.

Very truly yours,

JOSEPH J. CASHMAN,

Director of Visual Education.

SCHOLARSHIP FUNDS

Sanger Scholarship

Resolved by the Board of Education of Franklin:

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship", and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin High School; second, her parents must reside in Franklin; third, the student's parents must be unable without undue deprivation to pay the tuition themselves.

Be it resolved: That the Board of Education of the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages: and

Be it further Resolved: That said Board of Education willingly accepts said trust: and

Be it further Resolved: That a permanent Committee on Scholarships shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved: That this resolution shall be printed annually in the school report of said Board.

Franklin Student Aid Fund

To the Mayor and Members of the City Council, Franklin, N. H.:

In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the con-

ditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish followed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

Franklin Student Aid Fund

Established by Walter F. Duffy, June, 1921

A sum of \$2,500.00 is entrusted to the City of Franklin, N. H., the income from which is to be used to assist worthy boys and girls, residents of this city, to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

I. Scholarship

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

II. Financial Needs

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

III. General Restrictions

It is to be understood that in allotting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the

income can be used to assist any boys or girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education or its equivalent, provided that the first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby prevented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the citizens of Franklin, N. H.

Daniell Scholarship

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship".

Resolved by the City Council of the City of Franklin, as follows:

Whereas. Jere R. Daniell of New London, Connecticut, on the second day of April 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship", and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the cost of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute Scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it Resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and

Be it further Resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further Resolved, That a Permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further Resolved, That this resolution shall annually be printed in the reports of said city.

Approved,

W. W. EDWARDS, Mayor.

Passed June 1, 1914.

Resolutions

RESOLUTION

No. 1

In the year of our Lord one thousand nine hundred and forty-six.

A Resolution relating to hiring money.

Resolved, by the City Council of the City of Franklin, as follows:

That, the Mayor and City Treasurer are authorized to hire money to pay the current expenses of the several departments and any outstanding notes, bonds or evidences of debt of the City, becoming due and to give promissory notes of the City therefor.

Approved: HENRY J. PROULX, Mayor.

Passed: January 7, 1946.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 2

In the year of our Lord one thousand nine hundred and forty-six.

A Resolution relating to borrowing money in anticipation of taxes.

Resolved, by the City Council of the City of Franklin, as follows:

That, the Mayor and City Treasurer are authorized pursuant to the Public Laws, C. 42, S. 75, to incur debts for temporary loans in anticipation of the taxes of the current municipal year, which loans are hereby expressly made payable from such taxes and to issue notes of the City therefor.

Approved: HENRY J. PROULX, Mayor.

Passed: January 7, 1946.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 3

In the year of our Lord one thousand nine hundred and forty-six.

A Resolution relating to hiring money in anticipation of 1946 taxes.

Resolved, by the City Council of the City of Franklin, as follows:

That, the purpose of paying such claims against the City of Franklin as may fall due before the fifteenth day of December, 1946, for the use of said city, of sums not exceeding in the aggregate the amount of one hundred and sixty thousand dollars (\$160,000.00) said loans being in anticipation of the taxes of the present year and being hereby expressly made payable therefrom, said Mayor and Treasurer shall give for the said loans notes of the said City bearing the authenticating certificate of the First National Bank of Boston, in Boston, Massachusetts, said notes to be signed by the said Mayor and Treasurer and payable December 16th, 1946.

Approved: HENRY J. PROULX, Mayor.

Passed: January 7, 1946.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

Resolved, by the City Council of the City of Franklin that a special election be held Tuesday, April 9th, for the purpose of electing a Councilman for Ward Two to fill the unexpired term of Auguste Maesicotte, declared vacant in accordance with Chapter 66, paragraph 3 of the Revised Laws of New Hampshire.

Approved: HENRY J. PROULX, Mayor.

Passed: March 4, 1946.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 13

RESOLUTION "Authorizing an issue of **\$55,000.00** General Improvement and Equipment Bonds."

City of Franklin

In the year One Thousand Nine Hundred Forty-six

Resolved, by the City Council of the City of Franklin, as follows:

That, the City Treasurer be authorized, with the approval of the Mayor, and the standing Committee on Finance to prepare, issue, and sell bonds in the amount of **Fifty-five thousand—and—00/100 Dollars** (\$55,000.) in accordance with the Revised Laws of New Hampshire, Chapter 72, entitled "Municipal Bonds" and designated as the "Municipal Bond Statute" as revised in the year 1942, and be it further Resolved, that the proceeds of this issue of Bonds be appropriated in the amounts and to the Departments hereinafter stipulated for the purpose of purchasing new Departmental Equipment of a lasting character, and for permanent construction improvements to wit:

Department of Highways

Equipment, sewer pipe, sidewalks, street signs,	\$41,500.00
---	-------------

Daniell Park Development

Parks and Playgrounds Department

Said Bonds to be designated "General Improvement and Equipment Bonds" and to be dated **April 1, 1946**, and payable to bearer as follows:

\$5,000 on April 1 on each of the following dates;

1947 to 1957 inclusive.

Said Bonds to bear interest at not exceeding $2\frac{1}{2}\%$ per annum, payable semi-annually, the place of payment of principal and interest, the fixing of the rate of interest, and the provision for the sale of the bonds and other matters in relation thereto, to be left to the discretion of the City Treasurer with the approval of the Mayor and standing committee on Finance. Said Bonds to bear the City Seal, and to be signed by the Mayor, countersigned by the City Treasurer, to have coupons attached bearing the facsimile signature of the City Treasurer, for the payment of interest at such rate as may be fixed, payable on the first day of **April** and **October** of each year.

Adopted: April 1, 1946.

Approved: HENRY J. PROULX, Mayor.

The foregoing resolution was read and adopted at the regular monthly meeting of the City Council, held on April 1, 1946. There were 7 members of the City Council present and 1 absent. A roll call resulted in the adoption of the Resolution, unanimously, by the affirmative vote of 7 members.

A true copy of record, Attest:

Mildred S. Gilman, City Clerk.

RESOLUTION

No. 14
